CUSTOMER GUIDE

The information below refers to Elle leaflets and yarns unless otherwise stated. This guide is for sales staff to use when assisting customers in selecting compatible patterns and yarns for knitting projects.

SIZES

Choose a size according to the bust/chest measurement by measuring around the fullest part of the bust/chest.

SELECTING YARN

The best results will be achieved with the yarn specified in the leaflet. The look and texture of the garment will then be exactly as photographed. However, should a yarn substitution be required, keep the following points in mind:

Does the yarn in question fall into the same count (thickness) and have the same knitting tension as stated in the pattern? For example, Family Knit Vintage Double Knit and Charity Pullskein both fall into the double knit count but the needles and knitting tensions differ which will impact on the sizing of the finished article.

Different yarns of the same thickness may have a different meterage. For instance Family Knit Vintage DK has 300 meters of yarn per 100 g ball; where as Pure Gold DK has 258 meters of yarn per 100 g ball. Thus, when a pattern calls for 8 balls using Family Knit Vintage DK and you want to substitute it with Pure Gold DK a quick calculation will tell you that you will need approximately 4 balls extra.

Where possible try to use a similar textured yarn as specified in the pattern.

When selling yarn, be sure that all the balls have the same dye-lot number to ensure consistency in colour.

TENSION

Tension differs from knitter to knitter, therefore it is essential to knit a tension swatch to ensure correct sizing.

SYMBOLS

The meaning of symbols used on labels are not always fully understood and any misinterpretation of the symbols will have an adverse effect on the handle and appearance of the finished garments. These symbols are explained below:

Approx. 312 m Approx. 343 yds	Meterage per ball, skein or cone		Do Not Iron		Do Not Tumble Dry
3 mm US D/3 UK 10	Crochet hook size		Cool Iron		Do Not Bleach
2,75 - 3,25 mm US 2-3 UK 12-10 	Needle size:		Warm Iron		Do Not Dry Clean
	First size indicates the smallest size needle best suited for the specific yarn count.		Hot Iron		May Be Dry Cleaned
	Second size indicates the largest size needle best suited for the specific yarn count.		Machine wash at temperature stated on wool cycle at minimum action		Hand wash at temperature stated at minimum action

ABBREVIATIONS USED IN OUR LEAFLETS

alt	alternate	inc	increase	rev	reverse	SKTPO	slip one, knit two together, pass slipped stitch over
beg	begin(ning)	k	knit	rev st st	reverse stocking stitch: purlside as right side.	tr	treble
ch	chain	kfb	knit into front and back of stitch	R(W)S	right(wrong) side	tr tr	triple treble
cont	continue	k(p)w	knit(purl)wise	R(W)SR	right(wrong) side row	tbl	through back of loop
dc	double crochet	m1	make one stitch thus: pick up loop between last and next stitch and k(p) into back of this loop	R(W)SF	right(wrong) side facing	tog	together
dec	decrease	patt(s)	pattern(s)	RW	ribwise	yfd	yarn forward
dtr	double treble	p	purl	R(L)HS	right(left) hand side	yb	yarn back
foll(s)	follow(s)ing	pfb	purl into front and back of stitch	st(s)	stitch(es)	yoh	yarn over hook
g st	garter stitch	psso	pass slipped stitch over	st st	stocking stitch	yon	yarn over needle
htr	half treble	rem	remain(ing)	sl	slip	yrn	yarn round needle
		rep	repeat	SKPO	slip one, knit one, pass slipped stitch over		

SIZES

The sizing for children does not always go by age or chest measurement, but rather by height of the child (height = from the bottom of their heel to the top of their head). To assist you with this sizing, the following is a table you can refer to:

Age	3 m	6 m	9 m	1 yr	2 yr	3 yr	4 yr	5 yr	6 yr	7 yr	8 yr	9 yr	10 yr	11 yr	12 yr	13 yr	14 yr	
Height	62	68	74	80	92	98	104	110	116	122	128	134	140	146	152	158	164	cm

A close-up photograph of several spools of white thread mounted on a sewing machine. The spools are arranged in a row, with the one in the foreground being the most prominent. Each spool is held in place by a yellow plastic ring and a metal pin. The thread is a fine, white, textured material. The background is slightly blurred, showing more spools and the mechanical parts of the machine.

A close-up photograph of a blue, aerodynamic car body part, possibly a rear bumper or fender, being machined on a green industrial lathe. The part is mounted on a metal fixture and is rotating, creating a blurred effect. The lathe's tool is visible on the left, and the background shows the green structure of the machine.
